DETAILED ACTION

1. This office action is in response to the following communications: The Application filed and the Information Disclosure Statement filed on July 11, 2003.
2. Claims 1 – 4 are pending on this application. Claims 1 and 4 are independent claims.

Allowable Subject Matter

3. Claims 1 - 4 are allowed.
4. The following is an examiner's statement of reasons for allowance:

With respect to claim 1, in addition to other elements in the respective claim, the prior art does not teach or suggest "a column address transmitting unit for simultaneously enabling the first and second decoding unit, regardless of a bit select block signal, which selects the first or second unit blocks, of the inputted column address during a test mode; and a first and a second output pads for individually outputting each of outputted signals from the first and second combining circuits".

With respect to claim 4, in addition to other elements in the respective claim, the prior art does not teach or suggest "a test mode controller for simultaneously enabling the first and second decoding unit, regardless of an outputted column address from the counting unit during a test mode; and first and second output pads for individually outputting each of outputted signals from the first and second combining circuits".

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Copper et al. (Patent No.: US 6,144,598) discloses efficiently testing of memory devices.

Nakaoka (Patent No.: 5,864,510) discloses a memory device is tested in a bit-compressed test mode.

Kim (Patent. No.: 5,892,721) discloses an input/output pad for receiving identical data in a test mode and for outputting resultant data after the test.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
